Disaster Financial Assistance: [PAST DUE] <80% of the value lost (<\$300,000) where losses could not be insured

gov.bc.ca/disasterfinancialassistance

If you have home insurance

Contact your insurance provider; clean-up and restoration services may be included in your insurance policy. If you are unsure about the response you get from your home insurance provider, contact the Insurance Bureau of Canada and they will help clarify your policy and what is covered.

ibc.ca/on/disaster

Asbestos Contamination

Asbestos Contamination in Houses built before 1990

1. N95 Masks are not sufficient to protect from Asbestos exposure.
2. Mold is a significantly lower health risk and priority should be to remove drywall safely rather than quickly.
3. Consider all pre-1990 drywall to contain asbestos until proven otherwise. Testing available in Abbotsford.
